Informație pentru consumatori cu privire la consumul de carburant și la emisiile de CO2: începând cu data de 1 septembrie 2017, pentru anumite autovehicule noi omologarea de tip se acordă conform Procedurii de Testare a Autovehiculelor Ușoare Armonizată la Nivel Mondial (World Harmonised Light Vehicle Test Procedure, WLTP), o procedură de testare nouă și mai realistă pentru măsurarea consumului de carburant și a emisiilor de CO2. Începând cu data de 1 septembrie 2018, WLTP va înlocui noul ciclu de conducere european (NEDC), procedura de testare actuală. În timpul acestei etape de tranziție, din punct de vedere legal este în continuare obligatoriu să se menționeze valorile NEDC. Datorită condițiilor de testare mai realiste, valorile consumului de carburant și ale emisiilor de CO2 măsurate conform WLTP sunt în multe cazuri mai mari decât cele măsurate prin NEDC.
